

Step 1

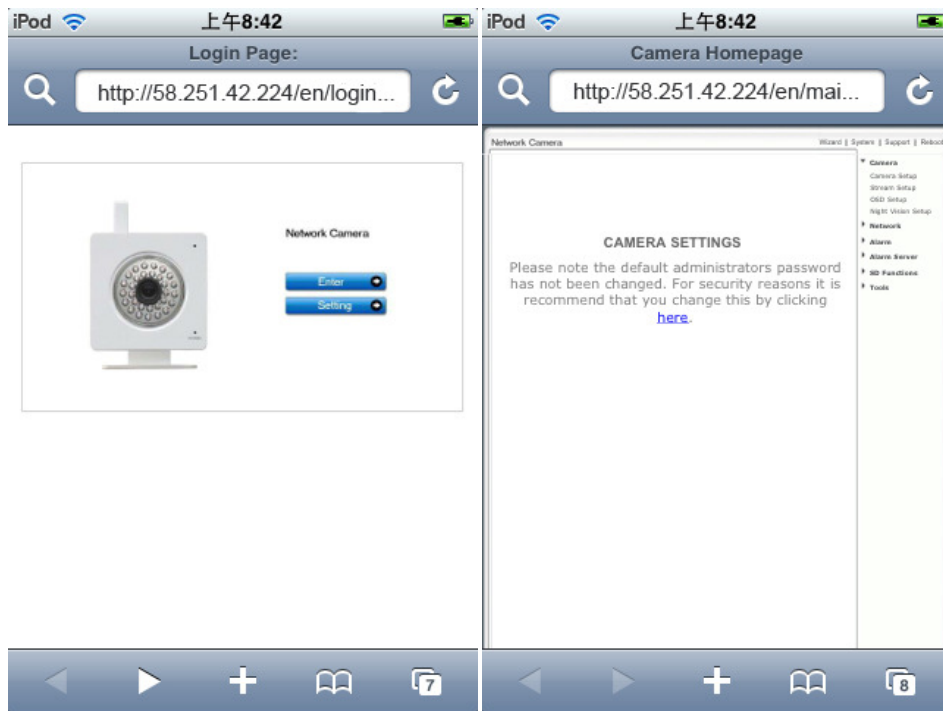

Step 2

Step 3

Step 4

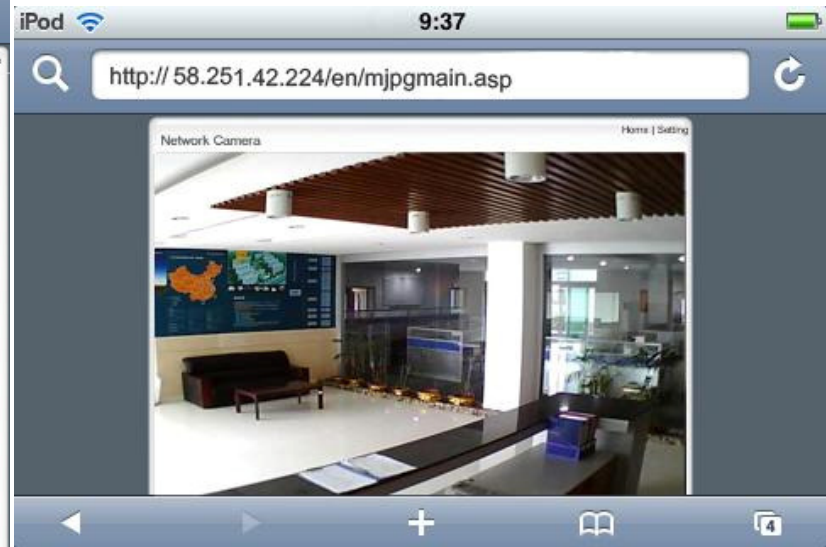

### Step 5

First make sure that the network is working on IPHONE, then you can continue with the next steps; if not, please consult local operators.

Open the IE interface, enter the IP address to access the IP Camera; then enter user name & password; the default user name & password are “admin”.

You will see in Step 5, when the Connection is successful, click [Enter] for IP camera live view, or click [Setting] to access the setting page.

### Step 6
